3. At the request of the office of Senator Butler (R., Md.) I talked with [] who had formerly applied for a job with CIA at which time he disclosed that he had shared office space in Baltimore with a law school classmate named [] who had been convicted under the Smith Act. At the time that he shared this space he had no knowledge that [] was a Communist. [] stated that since that time STATOTHR he had been investigated and cleared for his reserve commission but had been unable to secure federal employment. This he attributed to CIA blocking. I informed [] that CIA had no internal security functions and that his personnel files would not have been available to other agencies in the Government. Therefore any failure for him to get a Government job could not be laid at our doorstep.
